

Rehabilitation, Investigations & Diagnostics

Who

We Are

Celebrating 20 successful years, we are a respected market leading medical reporting and rehabilitation provider. With a customer-focused, motivated team producing well over 150,000 medical reports and servicing over 60,000 patient records a year, we have the expert knowledge and experience to drive exceptional service and quality.

What We Do

We are committed to delivering excellence at every touchpoint. Our customer-centric drive and genuine passion enable us to deliver the service that is right for you, your business and your clients.

Our goal is to add real value and our definition of real value is the most advantageous combination of cost, quality and efficiency to meet your unique requirements and expectations.

How We Work

Irrespective of your business' size or instructing volume, we will build a strong relationship with you and your wider team that focuses on partnership, quality and delivery.

Our dedicated teams are on hand to partner with you on each individual case to understand your bespoke needs and deliver timely, cost effective solutions to improve your business efficiencies.

Your Expert Partner

With 20 years' experience in facilitating rehabilitation treatments, we understand the importance of helping to minimise the long term physical & psychological impacts of an accident. This is why we offer a fully comprehensive rehabilitation service to get your client back to their pre-accident state.

Our treatment offering is endless; we facilitate thousands of treatment sessions every year in over 1000 venues across the UK.

Where the need is identified, we can facilitate a vast range of physical and psychological rehabilitation via our extensive panel of medical experts. Dependant on the needs of your client, we can offer a variety of treatments in order to give the best rehabilitative outcome.

With access to both early intervention and post-report rehabilitation services, you can be sure that we offer the right service for you.

Whatever your rehabilitative needs, we can deliver

We can facilitate any type of rehabilitative treatment including:

- Physiotherapy
- Osteopathy
- Chiropractic Treatment
- Acupuncture
- Counselling
- EMDR
- CBT
- Neuro-psychological assessment

Physical

Rehabilitation

From road traffic accidents to complex cases, our physical rehabilitation offering has been designed to adapt to different injury types in order to achieve a positive outcome for your client.

Our unrivalled expert panel includes thousands of Chartered Physiotherapists who, along with other specialist providers, facilitate hundreds of thousands of treatment sessions every year.

Physiotherapy

We can offer both early intervention and post medical report rehabilitation services dependant on the requirements of your client. All of our physiotherapy sessions are conducted in a 30 minute face to face assessment.

Early Intervention

Our effective triage process allows us to identify the extent of your client's injuries and quickly arrange treatment allowing you to focus on the next steps in your case.

Post Medical Report

If the medical report is provided by us, we'll highlight any recommendations for physiotherapy and provide costs with a view to saving you time and money in sourcing an additional rehabilitation provider.

When the need for physiotherapy is identified within a medical report we'll facilitate the treatment required at the earliest opportunity and convenience for your client.

Treatment

There really is no limit to our treatment offering. We facilitate thousands of treatment sessions every year in over 1000 venues across the UK.

We don't just stop at the treatment either; we can facilitate all aspects of further rehabilitation. Anything from driving lessons designed to build back confidence to cosmetic camouflage and beyond.

Treatments covered include:

- Physiotherapy
- Osteopathy
- Chiropractic Treatment
- Acupuncture

Psychological Rehabilitation

The effects of an accident aren't always just physical. Experiencing a traumatic and unexpected event, such as a car accident or an accident at work, can often have an impact on your mental wellbeing.

Tackling psychological issues at the earliest opportunity can significantly increase the speed of your client's overall recovery and help get them back to optimum health.

Psychological Assessments

We understand that in these cases your client may require a more tailored approach to Psychological rehabilitation.

We will arrange for a member of our panel of highly experienced Psychologists to undertake a prompt and comprehensive face to face assessment to evaluate the psychological impact on your client following an accident.

Psychological Rehabilitation

Following the assessment and the receipt of any recommendation, we can facilitate an extensive range of psychological treatments via our extensive expert panel for children, adolescents, adults, older adults and families:

- CBT - Cognitive Behavioural Therapy
- Neuro-psychological assessment
- Counselling
- EMDR - Eye Movement Desensitisation and Reprocessing

Convenience for your client

Great relationships with numerous providers and experts across the UK, spanning various fields of expertise, allow us to arrange assessments and treatment sessions to be carried out at the most convenient time and location as possible for your client.

Surgical

Procedures

Surgical procedures can form a vital part of your client's recovery.

We have built solid relationships with medical professionals in the delivery of surgical solutions across the UK enabling us to facilitate any procedure required to aid your clients' return to optimum health. By working with a number of leading private providers as well as the NHS, we ensure your client is seen quickly and in a comfortable environment.

Quality Aftercare

Surgical procedures can take their toll on a person's short term physical and psychological wellbeing.

Following a surgical procedure, your client may require extra care and treatment to aid their recovery. This may be an inpatient stay, a course of Physiotherapy, Psychological treatment or even a session of driving lessons

Some of the most common injuries that require surgical intervention are:

- Limb injuries
- Spinal injuries
- Fractures and broken bones
- Plastic surgery

Arranging a surgical procedure can be a difficult process for both you and your client which is why we do all of the hard work so you don't have to.

Investigations & Diagnostics

Sometimes the root of a problem may not be obvious and so the need for investigations and diagnostic services may be present.

Following a clinical recommendation we can arrange a number of diagnostic investigations to better understand your client's injuries.

Our strong relationships with leading diagnostic service providers throughout the UK allow us to book examinations at times and locations that are most convenient for your client.

Surgical Investigations

Although many investigations and diagnostics are non-invasive, there may be the need for a more in-depth investigation.

Where this is the case, we can arrange for surgical investigations, such as camera investigations to take place at the most convenient time and place for your client.

Services we can facilitate include:

- MRI - Magnetic Resonance Imaging
- CT Scan - Computed Tomography
- X-rays
- Arthroscopy
- Ultrasound
- Bone scans
- PET scans
- Brain scans
- ECG - Electrocardiography
- EMG - Electromyography
- SPECT- Single Photon Emission Computed Tomography
- NCS - Nerve Conduction Studies

Expert Panel

Our Expert Panel

We are continually enhancing our panel of Rehabilitation experts and providers improving coverage and service levels whilst expanding on our expertise.

To ensure service continuity we would also welcome the opportunity to incorporate your preferred experts on to our panel, subject to our stringent on-boarding process.

Our comprehensive panel of experts, covering all disciplines, has a nationwide reach and is made up of thousands of experts.

Recruiting the Best

Subjected to our stringent recruitment on-boarding process and regular checks, we ensure only the highest calibre of specialist experts are selected for your case.

Clinical Governance

At Speed Medical, we are wholly committed to delivering Clinical Excellence with our mission to lead the way through our exceptional clinical standards.

Our market leading approach to Clinical Governance positions us at the forefront of the industry and demonstrates our dedication to continuous development and setting the standard.

Our Clinical Advisory Board (CAB) - which includes a Consultant Clinical Psychologist, a Physiotherapist and a Consultant Trauma and Orthopaedic Surgeon - oversees all clinical governance, quality and safety to maintain exceptional clinical standards throughout. They promote clinical leadership and engagement in the development and delivery of our governance, clinical and quality strategies.

👍👍 I've worked with Speed Medical for many years. The work ethic and professionalism of the Rehabilitation Team is exactly why Speed Medical is always my agency of choice. It is a pleasure to work alongside them. 🗨️
